Dan,

Over the past few years Eldorado Spring Water has had numerous problems, caused by power surges, to our server and phone system. Last winter we installed Total Protection Solutions surge protection equipment for both our computer system and phone system. Since the installation, we have had no problems, or downtime, with either our phone system or server. I believe the surge protection system has had a significant effect on our bottom line; and is an investment I wish I had made earlier.

A handwritten signature in black ink, appearing to read "KS", with a long horizontal flourish extending to the right.
