TPD Power Filter absorbs, dissipates and removes harmful transient voltages traveling on AC & DC power circuits reducing lockups, glitches and reprogramming issues.

Improve power quality for your sophisticated electronic loads. **Rebooting, reprogramming and replacing processors, circuit boards and components** can be a never-ending battle. **Occasional glitches** in the system are as simple as equipment locking up or turning on and off without user input to **wide spread damage during a severe lightning storm**. Larger pulses will cause catastrophic failure while smaller pulses degrade the life and reliability of these systems and controls. Protecting phone lines entering the home as well as protecting phone lines running between buildings saves money by protecting your systems from lightning. It also increases safety by protecting everyone using the phones.

**Specifications**

- **Maximum Rated Surge Current:** 2kA per pair
- **Applications:** All major telephone line protocols including dial-up (POTS), ADSL, HSDL, ISDN, T1/E1, DDS, leased, and dedicated lines.
- **Design:** Multistage hybrid fail-safe design
- **Warranty:** 10-Year Unlimited Free Replacement
- **Safety Listing:** UL Listed 497A as Secondary Telephone Protector
- **Strength:** 2kA per pair
- **Maximum Data Rate:** 16Mpbs
- **Mode of Protection:** All modes: tip-ring, tip-ground, & ring-ground
- **Response Time:** < 1 nanosecond
- **Number of Protected Circuit:** 1, 2, 4, 5
- **Series Resistance:** <1 ohm
- **Dimensions (approx):** Two enclosure sizes depending on the number of circuits.
  - **Case A (1, 2, & 4 pair):** 2.885"H x 2.130"W x 1.130"D
  - **Case B (5 pair):** 4.375"H x 2.885"W x 1.230"D
- **Enclosure Type:** Case A & B High-impact, non-metallic UL 94-5V flame resistant rated.

Tech Note: For phone line extensions or digital systems with operating voltages lower than 120 volts please see the TPD-SLP series for additional units and options. For incoming phone lines and phone extensions in high exposure areas please refer to the TPD Phone, Cable & Data Application Design for additional information.
